

Forbes Top Billionaires Analysis Project

Overview

This project aims to analyze the Forbes list of the world's top billionaires, focusing on identifying key trends, patterns, and insights related to the financial status, industry distributions, geographic locations, and other demographic data of the wealthiest individuals globally. This analysis will help in understanding the dynamics of wealth accumulation, the impact of economic and geopolitical factors on billionaires, and the sectors driving the highest wealth.

Visualization Questions

The visualization will answer the following questions: -

- 1.What is the number of Billionaires?
- 2.What is the number of Billionaires per male?
- 3.What is the number of Billionaires per female?
- 4.What is the number of Billionaires per Organization?
- 5.What is the Billionaires average age?
- 6.What is the Total Wealth by age?
- 7.What is the Total Wealth by category?
- 8.What is the percentage by Philanthropy Score?
- 9.What is the number of Billionaires per Country?
- 10.What is the sectors driving the highest wealth?

Tools Used

The analysis was conducted using [Power BI Desktop](#).

Websites used are [Novy Pro](#), [Adobe Color](#), [Figma](#) and [Flaticon](#).
